Educating the Whole Child:

Learning academics is important, but it is also important to learn about social skills needed to be successful. We are proud to work with our students to provide a supportive environment through the following programs:

- Responsive Classroom
- Character Education
- PBIS (Positive Behavioral Interventions and Supports)
- Restorative Justice

Special Integrated Programs:

We are able to provide diverse programs that enrich each student's learning experience. The following are some of the programs that we provide:

- Balanced literacy
- Title 1 instruction
- 8-Step process education
- Data-driven instruction

Positive School Climate:

We work hard to create connections between families and staff because we know that a strong school-family relationship benefits the student. Teachers and staff have years of experience with the social and emotional learning that takes place at this age. Students can explore and participate in a variety of academic activities during and outside of school.
